## SUMMARY

---

Full Stack Developer with over 3 years of experience in designing and developing scalable web applications. Specialized in building modern, responsive user interfaces and implementing robust backend architectures using Node.js and Express. Experienced in developing secure REST APIs, JWT-based authentication, and managing both relational and non-relational databases. Strong focus on code quality, performance optimization, maintainability, and industry best practices.

## SKILLS

---

### Frontend

- HTML5, CSS3, JavaScript
- React, React Router DOM, React Hook Form
- Responsive UI development
- Bootstrap, Tailwind CSS, Sass / SCSS

### Backend

- Node.js, Express.js
- RESTful API development
- MySQL, MongoDB
- Sequelize (ORM), Mongoose (ODM)
- Authentication & authorization (JWT)
- CORS configuration

### Full Stack & Tools

- TypeScript
  - Next.js (Full Stack)
  - Git, GitHub
  - npm, yarn, pnpm
  - Vite
  - Docker
  - Vercel
  - Zod
  - Figma
- 

## WORK EXPERIENCE

### Freelance Web Developer — Self-employed 2022 – Present

Designed and developed full stack web applications focused on solving real-world needs, from business management systems to platforms with user authentication and team collaboration.

### Food Kiosk (2024)

- Built a full stack restaurant management system with multiple views: a customer-facing kiosk for placing orders, a kitchen display to manage incoming orders in real time, and an admin panel for product and inventory management.
- Stack: Next.js 14, Prisma ORM, PostgreSQL, Zod, Zustand, Cloudinary, Tailwind CSS, TypeScript.

### Task Manager (2025)

- Developed a full stack project management app where users can create projects, manage tasks across customizable status stages (Pending, On Hold, In Progress, Review, Completed) with drag & drop, and invite team members via email with role-based permissions.
- Includes an activity log that tracks all changes with notes, and user account settings for updating email and password.
- Stack: React + Vite, Express/Node.js, MongoDB, Mongoose, TanStack Query, React Hook Form + Zod, React Router, TypeScript, Tailwind CSS.
- 

## EDUCATION

---

### **Bachelor's Degree in Computer Systems Engineering – Tecnológico Nacional de México** 2018 – 2023

- Specialization: Databases
- Relevant Courses: Project Management (Online)

#### **Additional Courses & Certifications**

- Complete Web Development – FreeCodeCamp (2019 – 2024)
- Node.js, MVC Web Development, REST APIs (Online)
- React and TypeScript – Udemy (Teacher: Juan Pablo de la Torre Valadez)
- Networks and Connectivity – CISCO / NetAcad (2022)
- Programming Fundamentals (Online, 2018 – 2019)

## ADDITIONAL INFORMATION

---

- Authorized to work in the United States
- Languages: Spanish (Native) | English (Intermediate)
